## **DETAILED ACTION**

### ***Specification***

1. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 29-48 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. For at least claims 29, 37 and 42, The Examiner considers the limitation of “user-input” from claims 28 and 37 that is similar with “print request” from claim 42. The limitations of “user-input” in claim 29 and 37, and “a print request” in claim 42 which render the claim indefinite and renders the claim indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention because the limitation of “print request” is sent to the server, then the server should process and printing based on the request, why the server responses by sending back “the universal printer file”.
